PRODUCT DATA SHEET

4U 19" Rack-Mount/Slide-out Optical Splice Tray Enclosure

Overview

Nitrotel's 19" Rack Mount Fiber Optic Splice Tray Enclosure provide the perfect solution for protecting fiber optic interconnects in applications that don't require active equipment connections or adapter plate cross-connects. These splice tray enclosures feature a convenient slide-out support tray and front/rear access doors to assist the user in installation, management and maintenance of spliced fibers.
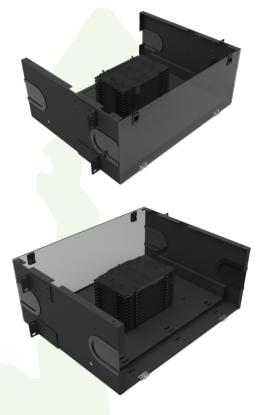

Key Features

- Designed for splice tray consolidation
- Transparent plastic front & solid rear panel are hinged for easy access
- Sliding tray with built-in latch-lock for effortless installation
- Rubber grommets protect against cable kinks and dust penetration
- Large, translucent window provides clear view of the splicing field.
- Complete front and back panel access to any/all trays in the panel.
- Complete installation hardware
- Durable construction with built-in fiber slack management mechanisms provides reliable protection and storage for delicate fusion or mechanical fiber optic splices

Specification

- 19" Rack Mount
