

PRODUCT DATA SHEET

Nitrotel Nitro Wrap

<Loop>

The soft side of Rip-Tie Lite called "LOOP". It is soft knitted loop.

<Hook>

The hard side of Rip-Tie Lite called "HOOK". It is molded hook.

*Laminating Hook and Loop technology is patented worldwide. In cheap similar products, Hook and Loop are heat bonded or uniting by using adhesive. Therefore the connecting part seems to come off easily. Nitrotel NitroWrap never comes off from the connecting part.

- Professional installers choice.
- At least 200 re-fastenings.
 - Available in 10 colors.
 - Stocked in Rolls of 3 / 4" width x 75 feet long (available in other widths and lengths; call for pricing)
